

points

tight clusters
clustered group none
different farthest plot point
bunches they
three distance
groupings most overlap
circles more separation
apart linear non clustering circle tightly overlapping others
very touch line much outlier
only between has close dots
grouped separated shape sets less scattered red smallest
intersection concentrated each other ovals connected size
rest trend farther color isolated
small spacing this colors plots onethan distinct
separate spaced have from smaller
separated touching tightest too some and least
two together
compared with
not the
separation
separate shapes spread
